Marmik Vyas

FULL STACK DEVELOPER

Ph : 8200216752 | [Gmail](#) | [GitHub](#) | [LinkedIn](#)

Career Objective
MERN Stack Developer with a strong focus on building secure, scalable, and user-friendly web applications. Committed to delivering reliable solutions while continuously improving technical expertise.

Technical Skills
- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)
- **Backend:** Node.js, Express.js, MongoDB, RESTful APIs
- **Tools & Platforms:** Git, GitHub, Postman, Render, Railway
- **Other:** Authentication & Authorization, Email OTP Verification, Password Encryption, Error Handling, Responsive UI

Projects

Authify - Authentication System
Tech Stack: MERN, JWT,REST API, Bcrypt, Nodemailer
- Developed a full-stack authentication app with login, signup, and logout functionalities
- Implemented email verification via OTP and secure password reset process
- Protected routes using JWT tokens and context-based login state management

Password Manager App
Tech Stack: MERN
- Built a secure password management application with encrypted data storage
- Ensured user authentication for accessing saved passwords
- Focused on security, user experience, and mobile responsiveness

Splindora - Travel Planner & Expense Tracker
Tech Stack: MERN,JWT,Bcrypt,REST API
- Developing a web app for trip planning with expense tracking and Splitwise-like functionality
- Features include trip creation, expense management within a centralized dashboard
- Implementing secure login with real-time expense updates and user-friendly design

Achievements
- Successfully deployed full-stack applications using Render, Railway & Vercel
- Built and tested secure authentication flows with email verification
- Integrated state management using React Context API

Education
Bachelor of Technology (B.Tech) - Information Technology
SVIT VASAD, India | July-2023 - July 2027
